

**NDUS AI Forum  
Agenda  
Thurs, September 7, 2023 – 230-330pm CDT**

**Meeting via Teams**  
[Click here to join the meeting](#)

1. **Roundtable:** Campus updates on early semester AI challenges and opportunities
2. **Update:** other initiatives happening in the NDUS and in the legislature
  - *Two Envision 2035 study groups:* Programs of the future (Dim glossaries

A University Leader's Glossary for AI and Machine Learning:  
<https://app.hubspot.com/documents/2016543/view/633138404?accessId=cbc776>

From IBM: [AI vs. Machine Learning vs. Deep Learning vs. Neural Networks: What's the difference? \(ibm.com\)](#)

***Another “start of the semester” guidance from Cornell:***

Generative AI for Education & Pedagogy.

[https://teaching.cornell.edu/sites/default/files/2023-08/Cornell-GenerativeAIForEducation-Report\\_2.pdf#:~:text=The%20most%20obvious%20risk%20is%20that%20AI%20tools,problems%2C%20including%20violations%20of%20privacy%20and%20intellectual%20property.](https://teaching.cornell.edu/sites/default/files/2023-08/Cornell-GenerativeAIForEducation-Report_2.pdf#:~:text=The%20most%20obvious%20risk%20is%20that%20AI%20tools,problems%2C%20including%20violations%20of%20privacy%20and%20intellectual%20property.)

***From the popular press, an interview with Eric Schmidt, former Google CEO:***

[Video: Fareed looks at the brave and frightening world of AI | CNN Business](#)

Schmidt also references Deep Mind's system for managing risks within the development of AI models, and here's a link to that document. It is a touch nerdy, but the description of risks and the areas of focus are interesting, as they promote an important sense of responsibility:

[An early warning system for novel AI risks \(deepmind.com\)](#)

**4. Future sessions**
